

a new Tradition

Architecturally appealing and an affordable alternative to clay chimney pots, Copper Chimney Pots provide a lightweight and traditional alternative for chimney termination.

They are easy to install, provide excellent rain protection and a barrier against pests and animals. Copper Chimney Pots make an excellent termination for an

Isokern chimney system or other alternative chimney systems.

With minimal maintenance, they are rust-proof, assist in chimney draft and serve as a spark arrestor. Copper Chimney Pots complete the home of your dreams.

earthcore[®]

INDUSTRIES, INC.

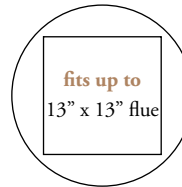

3'3"

The Queen

Base: 1'-8" Weight: 26 lbs.

The Queen is a smaller scale of the King in weight and height. Same octagonal shape and vent design. Available in copper and patina.

copper

patina

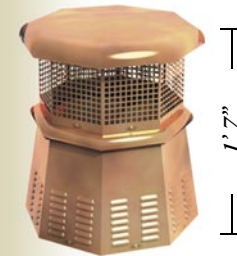

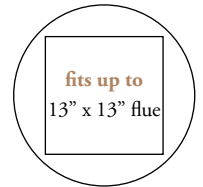

2'11"

The Bishop II

Base: 1'-8" Weight: 22 lbs.

A smaller, subtler version of the Bishop. Same rounded shape and vent design. Available in copper and patina.

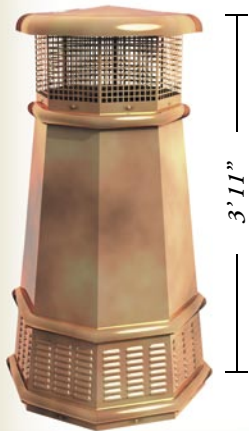

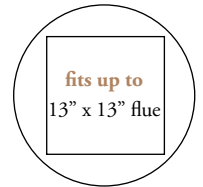

1'7"

The Pawn

Base: 1'-7" Weight: 17 lbs.

The smallest of the entire line. The Pawn makes a nice addition to any chimney that is small in scale. Available in copper and patina.

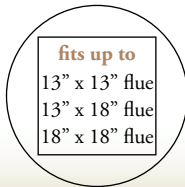

3'11"

The King

Base: 2'-0" Weight: 36 lbs.

The largest copper chimney pot we offer. The King has an octagonal shape making as impressive statement for your home. Available in copper and patina.

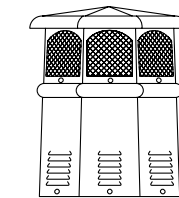

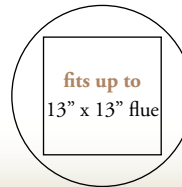

3'4"

The Bishop I

Base: 1'-8" Weight: 24 lbs.

Round in shape, this version replicates the shape of standard clay pots, without the weight and decay. Available in copper and patina.

Simple installation and maintenance
